PROFESSIONAL SUMMARY

I am third year Software Engineering student with a strong interest in full stack web development and practical AI integration. Experienced in building responsive web applications using HTML5, CSS3, JavaScript, PHP, Laravel, and MySQL, with modern UI development using Tailwind CSS. Skilled in system requirements analysis, UI/UX prototyping, and developing practical software solutions. Currently exploring Generative AI and modern AI technologies to enhance web applications. Seeking a Web Developer Internship where I can apply my problem solving skills, expand my technical knowledge, and contribute to real world projects.

TECHNICAL SKILLS

- Languages: PHP, JavaScript, Java, HTML5, CSS3, SQL
- Frameworks & UI: Laravel, Blade, Tailwind CSS
- Database: MySQL, Database Design, SQL Query Optimization
- Development: Object-Oriented Programming, System Requirements Engineering, REST API Integration
- Tools: Git, GitHub, Visual Studio Code, XAMPP, Laragon
- Design: Figma, UI/UX Prototyping
- AI: Generative AI, AI API Integration

PROJECTS

Digital Phone Shop | Laravel, Blade, Tailwind CSS, MySQL

- Developed a responsive B2C e-commerce platform for browsing and purchasing mobile devices.
- Implemented product management, shopping cart, order processing, and database integration.
- Designed a user-friendly interface using Blade and Tailwind CSS.

Electric Store | Laravel, Blade, Tailwind CSS, MySQL

- Developed an e-commerce and inventory management system for electronic products.
- Implemented product management, inventory tracking, and sales-related functionality.
- Designed responsive interfaces for customers and administrators.

Burger Store | Laravel, Blade, Tailwind CSS, MySQL

- Built a responsive food e-commerce platform with product browsing and ordering functionality.
- Integrated database-driven product and order management.
- Developed reusable UI components using Blade and Tailwind CSS.

EXPERIENCE

Credit Admin | Daun Penh Specialized Bank Plc. (May, 2024 – December, 2024)

- Managed and verified customer data with strong attention to detail, maintaining accurate records across internal systems.
- Identified and corrected data inconsistencies to ensure data integrity.
- Collaborated with team members to ensure efficient daily operations.
- Developed strong problem-solving and analytical skills through rigorous data validation processes.

EDUCATION

Bachelor of Science in Software Engineering

Limkokwing University of Creative Technology | 2024 – Present

Relevant Coursework: Web Development, Database Systems, Data Structures and Algorithms, Software Engineering, Software Requirements Engineering, Object-Oriented Programming
